

Policy Management

DATA SHEET

Remove the Hassle of Policy Distribution and Acceptance

Company policies are a cornerstone of your business. Managing the process of distributing these policies to your entire organization and getting employees to accept can be a time consuming headache. TraceSecurity's Policy Management software has streamlined the distribution and acceptance of policies by putting it all in one place in an easy to use interface.

Policy Creators

Utilize our included templates to create a foundation for your policies

These templates use a best practice risk based approach to ensure a solid policy foundation

Administrators

Easily upload policy documents and create users and user groups

Bulk upload list of users

Assign users to user groups for mass distribution

Distribute policies by user groups or individual users

Track acceptance of policies

Users

Receive an email notification when there is a policy to accept

No usernames or passwords to remember

Click on the link in the email to be taken to the policy and acceptance page
