CONFIGURATION
REVIEWS

Your IT environment includes a variety of services and software to help protect your sensitive company information, but how do you know if they are set up and working properly?

Get an expert review of your solutions to confirm configurations, updates, and patches are properly implemented.

Reviews Include:

- ✔ Expert review & analysis
- ✔ System hardening guidelines
- ✔ CIS Benchmarks
- ✔ Vendor specific advice

Types of Reviews

Configuration Reviews can be performed on a variety of technical services and solutions, including Microsoft 365, Firewalls, VPNs, Servers, Clouds, Active Directories, and more!
