

ONSITE SOCIAL ENGINEERING

Are your employees prepared
for an in-person attack?

.....

With disguises and cover stories, our information security analysts attempt to gain access to your organization's sensitive areas, like server rooms and file storage. Test your employees to see if they properly handle visitors and follow escort policies during a real scenario.

OUR APPROACH:

- ✓ Real-time testing
- ✓ Customizable cover stories
- ✓ Researched backgrounds
- ✓ Authentic disguises & props
- ✓ Adaptable pretexting
- ✓ Multi-analyst options
